Don't just take our word for it...

I've been using this serum since March (2021) I am beyond THRILLED with the results... whilst I've always cleansed and moisturised, I have never shield away from the sun, a glass of wine or cigarette and it was taking its toll on my face. Life is too short and all that!! This serum is a keeper...
- Emma

I have been using this serum for 5 weeks and the difference in my skin is amazing! For years I have hated my dry, red, blotchy skin and have tried just about every product on the market. Now my skin is clearer, dewy and bright. No more red blotches and no more pre-menstrual breakouts!!
- Elaine

My wife bought this product and convinced me to start using it as my skin was looking really dehydrated, felt dry and deep wrinkles were getting more noticeable. I was shocked at how nice the serum was to apply. After around 6 weeks my skin felt hydrated, wrinkles appeared softer - this has now become a staple part of my daily routine which I use morning and night.

Amazing! Lip lines fading

Only been using for three weeks I was about to consider fillers 😬 lip lines fading so much hardly see them under make up - I have the serum I am on the website today to order the sachets too.

Wonderful serum

The serum gave my skin a fresh, cool feeling and a second life in my 67 years

Game Changer!

I ordered this with my initial subscription and became an Absoluter. I honestly love the smell and feel of the product and my skin has improved so much in terms of softness, texture, radiance... everyone is commenting on my glow! I would recommend this to everyone... it is without doubt my favourite product.

The photo the right is before and the other photos are all within use of my first few weeks of using the serum and taking 1 sachet of collagen a day.

Love it. Cheaper than the others on the market. Love the collagen too.

Great product and amazing prompt customer service.

'On the face of it

Love the fresh feel and smell of Maxerum. I have been using it for a couple of weeks now and my skin feels and looks smoother. I have also found that the serum has been a soother for problem areas of skin where I am prone to some facial hair growth. The 'bumps' have minimised and are not sore as they sometimes can be before hair appears. Particularly good at the moment as there are no facial treatments allowed for waxing. (Photo us of me make-up free. 56 years old and an Absoluter.

Youth in a bottle!

I love this serum. It smells Divine, two thirds of the pipette more than covers my face, neck and décolletage twice a day and after two weeks I've noticed just how smooth my skin feels. My fine lines appear to be finer and I can notice the creases on my forehead are beginning to soften too. I've also been taking the AC liquid from January which I adore too. My skin, hair and nails have all improved since then. I really feel both products compliment each other really well. Thank you! AC and ML 🍷
