US Dollar to Pound Sterling International Payment & Money Transfer Information

Transferring US Dollars to British Pounds Sterling is an easy and seamless process. FTT Global ensure international payments and money transfers in USD/GBP are made the same day, providing we receive your currency by midday.

All payments will need:

- An account number or IBAN code. The IBAN number is usually between 15 and 31 numbers and letters in length and starts with country specific letters (ie. FR for France).
- A SWIFT/BIC code which is a unique code for the bank where the destination account is held. The SWIFT/BIC ID consists of between 8 and 11 capital letters and numbers or a 6 digit United Kingdom bank clearing code.

Why FTT Global for Pound Sterling International Payments & Money Transfers?

If you're sending or making a foreign currency payment and you use your bank you are probably spending more money than you need to and have less control than you should. There is a better way. With FTT, you book a payment online in seconds and get an exchange rate before you commit, ensuring you are spending less and staying in control.

Using our online booking system, you can access our services anytime, anywhere on any device and keep up to date 24/7 on any active bookings. We typically save you between 2-4% on each and every money transfer you make compared with your bank and we have a friendly, helpful Support Team available via telephone and email if you have any queries.
